Pam,

I am available both Monday and Tuesday.

Yes, thanks, Roger. Do you have a preference for Monday or Tuesday for a meeting/conference call with me and Jackie and Jennifer?

Great, thanks, Roger. Are the areas being sampled now still having hits of PFOA?

Can I schedule something for Monday or Tuesday?

Pam

Pam,

The private well assessment and follow-up for the Chemours Washington Works facility is ongoing. We plan to discuss in the coming month the "next steps" with Chemours to determine which additional areas in West Virginia and Ohio that need to be sampled and addressed. Please schedule a time when we can talk about the site and answer any questions you may have. I have also been including Matt Konfirst and Mayek (Mike) Mavi in our Chemours Washington Works discussions. Thanks.

Roger

What is the status of the private well contamination from this site. Do they still have an issue and what's the extent. Can we sit down and talk about other potential problems when you guys get a chance?

Thanking you,

pam
